# The Asset Management Certificate course

The CPD certified Asset Management Certificate course consists of 14 online educational modules and is ideal for those with some initial experience of working in an asset management role looking to consolidate their knowledge and progress their career in the fast-developing discipline of Asset Management.

The course provides full coverage of the IAM's competencies framework, and the 39 subjects of *The Asset Management Landscape* published by the Global Forum for Maintenance and Asset Management (GFMAM). This course prepares learners to take the Institute of Asset Management Certificate exam.

## Who is this course for?

This course is for those who are wanting to develop their asset management knowledge and move towards a career in the discipline

- ◆ **Course content:** 14 core modules
- ◆ **Entry requirements:** There are no entry requirements
- ◆ **CPD credits:** 25 credits will be awarded on successful completion of the course
- ◆ **Access:** 9 months

“The course covers all aspects of life in asset management within facilities management, including but not limited to; risk, life cycle, maintenance and leadership. It has helped me develop processes and work towards best practice methods in the workplace.”

MR T B, PPM MANAGER

# Our course and learning journeys

The learning landscape can take many forms, depending on the needs of each organisation.

Some learners follow the full certificate level journey, whilst others cover a series of short courses to build awareness.

In addition to following a full course program, each module within the courses can be provided individually as required.

The matrix on the right indicates how relevant each module is for different departments within an organisation.

Modules		Leadership and Asset Ownership	Strategy, Standards and Assurance	Investment Planning	Asset Creation and Handover	Asset Maintenance and Operational Planning	Frontline Delivery	Corporate Functions
The Asset Management Certificate course	1	Introduction to Asset Management						
	2	Introduction to ISO 55000						
	3	Benefits of Asset Management						
	4	Risk and Risk Management						
	5	Organisation Context and Stakeholder Expectations						
	6	Scope of the Asset Management System						
	7	Asset Management Policy, Strategy, Demand Analysis and Objectives						
	8	Asset Management Planning						
	9	Asset Information						
	10	Asset Management Decision Making						
	11	Leadership, Organisation and People						
	12	Asset and Asset Management Systems Performance						
	13	Life Cycle Activities – Part 1						
	14	Life Cycle Activities – Part 2						

# Institute of Asset Management endorsement

We are an Institute of Asset Management endorsed training provider for the provision of training to enable achievement of its:

- ◆ Foundation Award, and
- ◆ Asset Management Certificate exam.

The IAM gives endorsement only to those training providers operating to the highest standards of integrity, so that individuals, organisations and their stakeholders can have confidence in the competence and capability of the provider they choose to learn with.

# Continuing Professional Development Certification

AWe! learning is certified by the UK's Continuing Professional Development (CPD) service which has a commitment to ongoing lifelong learning.

CPD encourages looking forward and identifying opportunities to learn something new, refresh existing knowledge, improve skills, or simply keep up-to-date with the latest developments within a particular profession or industry. All our courses provide learning based on the latest best practice in asset management, both from leading organisations and International Standards.

In practice, CPD can mean everything from taking a training course or attending an educational event to studying for new qualifications or learning new aspects of a job. It involves an individual documenting and keeping a record of the increasing skills, knowledge and experience they gain throughout their career.
